By participating in Erasmus Capacity Building and Cooperation Partnership projects, we aim to enable students and academic staff to exchange knowledge, experiences, and best practices with international partners. Although our primary goal currently is to engage in mobility programs, we plan to gradually develop projects that will contribute to the modernisation of curricula, the development of innovative teaching approaches, and the introduction of sustainable and technologically advanced solutions in the fields of tourism, hospitality, and wellness. We are particularly interested in collaborating with higher education institutions operating within the social sciences and humanities, offering related study programs, to jointly address contemporary challenges in these sectors.

Brazil, Argentina, Peru, Venezuela	Egypt, Libya

Which countries in Australia would you like to cooperate with?	Is there a specific institution in these countries that you are familiar with or would like to make contact with?
Western Australia	Australian National University.
From every country in Australia.	No.
Australia, New Zealand	Technical universities in all mentioned countries.
	Yes, (some, at least): SE-KTH, Stockholm; Qatar-Texas A&M University at Qatar; B&H-Medicinski fakultet Foča.
	No.
	No.

Australia, New Zealand, Papua New Guinea	Institutions in the field of agriculture, food technology and agroecology
From every country in Australia.	All are welcome.
Sydney, Melbourne, Adelaide, etc	No.
Sydney, Melbourne	AHO School of Architecture, Oslo, Norway; Aarhus School of Architecture, Denmark; DELFT University, Netherlands; Alto University, Finland
	No.
Australia	No.
From every country in Australia.	No.

Australia, New Zeland	Yes
	Netherlands
All	Veterinary faculties
From every country in Australia.	Familiar institutions from: Italy, Portugal, Spain.

Melbourne	No.
From every country in Australia.	No.
Australia, New Zealand	Inquiries from all institutions are welcome.
	Faculty of Agriculture
South Australia, Victoria, New South Wales	University of South Australia, Iceland University of the Arts, Université Cheikh Anta Diop de Dakar
Australia, New Zealand	If needed, we can provide a list of familiar institutions in a separate document.

All countries	No
From every country in Australia.	No.
From every country in Australia.	No.
Australia	No.
All	No.

Australia, New Zealand	Medical Schools
	No.
	No.
	No.
	No.
All countries	No

	Faculties of Philosophy and Philology.
	No there is not a specific one (it has to be Faculty of Sport and Physical Education)
From every country in Australia.	No.
	No.
	No.
	economics theory, data analysis

Australia, New Zealand	No.
Australia, New Zealand	University of Melbourne, University of Sydney, Victoria University Melbourne, Victoria University of Wellington.
Australia, New Zealand	No.
South Wells, Victoria	University of Tuebingen, University of Heidelberg, University of St. Kliment Ohridski (Sofia), University of Zagreb, University of Trnava (Slovakia)
	University of Ostrava, BOKU University, University of Craiova, University of Bari, University of Blagoevgrad, University of Ljubljana
Australia	No.
	No.

If you opted for Erasmus Capacity Building or Cooperation Partnership (Key action 2) or scientific research (e.g. Horizon Europe) projects, what is the need or the specific idea for this kind of cooperation?

N/A

To expand and improve quality of curriculum and research in institution.

Specific methods in (wood) drying, biomass and its utilisation, pneumatic and hydraulic systems, machine learning and artificial intelligence, acoustic emission.

We need an End User as/and partner for the implementation of research related to nanotechnologies, microelectronics, microfluidics, micromachining, nanophotonics, sensor techniques, advanced materials, cutting edge findings in fundamental sciences (physics, physical chemistry) and in electrical engineering.

N/A

-

Extending scientific, research and technical capacity of our Faculty.
Bacteriology, Molecular microbiology, Antibiotic resistance mechanisms, Pathogenesis in infective diseases.
N/A
Sustainability and Built Environment, Housing, Heritage, Creative Methodologies in Architecture, Urban Morphology.
European university.
/

Study of magmatism in different geodynamic environments, analytical support.

N/A

Health, veterinary sciences.

Various scientific or capacity-building or cooperation projects in the following areas: Economics, Business Planning and International Management, E-business, Industrial and Management Engineering, Information Systems, Information Technologies, Marketing Management and Public Relations, Mathematics, Management and Project Management, Interdisciplinary Research in Management, Human Resources Management, Technology, Innovations and Development Management, Operations Research and Statistics, Business Systems Organization, Computer Integrated Production and Logistics, Software Engineering, Quality Management and Standardisation, Production and Services Management, Financial Management and Accounting, Systems Management.

The use of artificial intelligence in order to preserve and improve reproductive health in the Republic of Serbia.

To improve quality of curriculum and research in institution.

Increasing research and teaching capacities of the research and teaching staff in the field of dental medicine through cooperation at transnational level, internationalisation of research and education, acquiring innovative scientific methods, and joint publications.

Learning new methods and techniques and their implementation in teaching system, improving teaching expertise, increasing expertise in plant anatomy and using anatomical studies as a tool for improvement yield in crop production.

Giving our students and staff new experiences, through workshops, new programmes. Improving programmes and contributing to the field.

No.

/

We would develop ideas together with the partners.
Our research groups are at your disposal for more information.

N/A

N/A

N/A

N/A

Chemistry, surfactants, bile acids, aggregation, biosurfactants, environment.

N/A

Developing short-term open courses/resources to enhance the professional development of university teachers and, on the other hand, to increase student employability.
Research Areas - language skills, soft skills, transversal skills, intercultural competence, digital literacy skills, accessibility and inclusion in education, universal design for learning.

Student motivation.

Joint research projects in Electrical Engineering and Computer Science (including AI, Computer science, Communications, Control Systems, Information Technologies, Electronics, Microelectronics, and Power Electronics) and related fields.

Finding partners and agreeing on projects, participants, defining the budget.

Fostering Cooperation and Development

/

To get a bigger picture about the world's history.

N/A

N/A

Urban analytics, smart cities, sustainable urban and regional development, urban circularity, urban mobility, land use economics, spatial economics.
Staff mobility.
N/A
Exchange of experience in teaching in secondary schools. Curriculum improving.
Developing a Joint Degree program in Environmental Science and/or Occupational Safety.
N/A
N/A

N/A

N/A

The funds for scientific research in Serbia are very limited.

Scientific research: cooperation and joint project or at least research groups.

Capacity building: enhancing international teaching in HEIs.

Dual carrier, inclusion in physical activity and society, top level sport, health and activity, methodology of scientific research, obesity, healthy aging, fitness components, student sports.

N/A

Education.

N/A

Yes.

N/A

N/A

There is no specific idea, (an unknown) partnership is needed in order that we "brainstorm" ideas and see what possible idea is applicable or worth applying for.

Development and promotion of innovative learning and teaching practices, methods and approaches, development of integrated STEAM (science, technology, engineering, arts & mathematics) approach in education of future primary teachers.

/

/

Research in area of (applied) linguistics focused on German language and English especially discourse studies.

More diverse partners can bring more versatility to the table (their networks, expertise, outreach etc).

Development of higher education.

I'm interested in potential opportunities for expanding and exchanging knowledge, cooperation, or scientific research projects in Artificial Intelligence in any field, especially in the field of Medicine and Imaging.

Pharmacological application of medicinal plant.

Tourism.

N/A

Medicinal chemistry research.

N/A

Scientific research on risk management and green (environmental) finance and their importance for sustainable business.

Enrichment of praxis and experience in the field of Education; joint researches.

N/A

Academic Writing, English for Academic Purposes,
English as a Medium of Instruction, Forensic Linguistics.

N/A

New models of education, Metacognitive problem
based blended learning.

Cyber security, AI and Traffic Safety curricula
development.

Projects regarding Blockchain Technologies, e-Learning, AI in education.

Digital Arts, Interactive media and Design.

Digital transformation, Digital marketing.

Joint research in various fields of ecology and sustainable development.

Cooperation and joint project in the field of Information technology, personalised learning, blockchain, video game design, software engineering.

Business and economics, IT, Artificial intelligence, Entrepreneurship.

N/A

Inclusion in higher education in the area of Physical education and sport.
Influence of Physical activities on Mental Health.

At the moment no specific project idea but we are interested to develop new project in fields of the economics, environment, biotechnology and agriculture. Educons University priority is further development of international cooperation and participation in more international projects. This year Educons University established Project incubator hub so we have need to jointly prepare and implement international projects, with special focus on Horizon Europe projects.

We would like to have a network of partners that we can invite to join us when applying for a specific project, or who would recognize us as suitable partners for a project they are applying for. Also, it would be helpful to have partners with similar programs of study so as to exchange experience and ideas, apply for projects together, etc.

Language and Cultural exchange - The university of Novi Pazar aims to foster language learning and cultural understanding by establishing partnerships that facilitate language exchange programs, cultural events and joint initiatives to promote intercultural dialogue. Curriculum development - The university also plans to seek collaboration with international higher education institutions to enhance its curriculum by incorporating innovative teaching methods, new disciplines, or emerging areas of study. Such cooperation can help in improving the quality of education and preparing students for global challenges.

To improve the quality of research and curriculum.

<p>Cooperation such as exchanging best practices, developing joint degree programs, promoting research collaboration, enhancing capacity building, fostering inclusion and diversity, and encouraging entrepreneurship and innovation. By sharing expertise, resources, and knowledge, institutions can enhance educational quality, drive research excellence, support inclusivity, and promote innovation in higher education systems. Through collaborative efforts, we can achieve mutual benefits and contribute to the advancement of education and research. Cooperation on the development of new curricula, improvement of education in the field of entrepreneurship, and green policies.</p>
<p>Environment engineering, public health, water and air quality.</p>
<p>Human rights, Environmental law.</p>
<p>N.A</p>
<p>N/A</p>

In silico; dietary products/food supplements;
cosmetology.

To find partners with whom we could develop exciting
and innovative projects in the field of dentistry and
health.

History and Theory of Architecture, Civil Engineering,
Sustainable and Ecological Design.

Security, Law, Economy, Entrepreneur, Management.

Cooperation in Architecture and Ecology.

Cooperation in Architecture and Ecology.

N/A

Transfer of good practices, development of new teaching approaches, developing virtual exchange, common researches in the area of: IT, new energetic technology, railway transportation, civil engineering and common projects in the area of textile materials and design.

N/A

N/A

N/A

More innovative and attractive education and training programmes, further development of digital competences, as well as competences to cater for the needs of groups with fewer opportunities, further development of competences to tackle environmental issues, increased capacity to work at the international level, improved management competences, etc.

N/A

Higher education modernisation and internationalisation and regional integration. Digital literacy. Diversity and inclusion.

N/A

N/A

N/A

N/A

Higher education digitalisation, AI, Environmental protection, Health, Cultural heritage.

Improvement of the quality of higher education, improvement of the level of competences, skills of staff and students, improvement of the training of teachers and continuous professional development, exchange of good practice, fostering cooperation across different regions of the world through joint initiatives, fostering innovation in training of aviation personnel, aligning skills and VET and HE and national and international regulations.

N/A

Topics we would be interested in are: disability, neuropsychology, AI, special education, assistive technology, artificial intelligence, activities of daily living, occupational therapy, child development, burnout syndrome.

Heuristic strategies, metacognition, self-regulated learning, creativity, giftedness.

Developing new programs adapted to the labour market (especially short cycle programs), developing professional practice for students to make them more prepared for the future job placements, creating new ways of providing professional practice (simulation methods), etc.

Scientific research on business economics and entrepreneurship, sustainable business, projects or programs adapted to the labour market.

N/A
Knowledge acquisition and best practices in dual education.
N/A
N/A
Digitalisation, Inclusion.
NA
Knowledge acquisition and best practices in dual education.
Any.

Cooperation and joint project in the field of Information technology and computer multimedia.

Increasing the competences of teachers/associates and students.

Funding of student exhibitions in European countries. Student exchange with similar Art universities especially with Italian conservation institutes. Approach to the European digital art libraries. Publishing the books written by our professors in European countries. Participation in Art exhibitions and conservation congresses.

The cooperation would focus on enhancing education quality, research and clinical practice by participating in programs which promote mobility, cultural exchange and skill development.

The Academy of Hospitality, Tourism, and Wellness recognizes the need for internationalisation as a key factor in enhancing the quality of education and strengthening institutional capacities. By participating in Erasmus Capacity Building and Cooperation Partnership projects, we aim to enable students and academic staff to exchange knowledge, experiences, and best practices with international partners. Although our primary goal currently is to engage in mobility programs, we plan to gradually develop projects that will contribute to the modernisation of curricula, the development of innovative teaching approaches, and the introduction of sustainable and technologically advanced solutions in the fields of tourism, hospitality, and wellness. We are particularly interested in collaborating with higher education institutions operating within the social sciences and humanities, offering related study programs, to jointly address contemporary challenges in these sectors.
