By participating in Erasmus+ Capacity Building and Cooperation Partnership projects, we aim to enable students and academic staff to exchange knowledge, experience, and best practices with international partners. Although our primary goal currently is to engage in mobility programs, we plan to gradually develop projects that will contribute to the modernisation of curricula, the development of innovative teaching approaches, and the introduction of sustainable and technologically advanced solutions in the fields of tourism, hospitality, and wellness. We are particularly interested in collaborating with higher education institutions operating within the social sciences and humanities, offering related study programs, to jointly address contemporary challenges in these sectors.
